

## Charlotte Martin Foundation: June 2012 Grant Cycle

| Grantee   | Grant Purpose  | Grant Summary  | Amount  | State |
|---|--|--|---------|-------|
| <b>Wildlife and Habitat Preservation</b>                  |  |  |         |       |
| Conservation Northwest                                    | Citizen Wildlife Monitoring                              | Citizens document wildlife in Washington such as elk, cougar, fisher, bears, gray wolf, moose, lynx, and wolverine, in selected habitats and share reports with agencies to better protect rare species and connect wildlife habitat.  | \$5,000 | WA    |
| Gifford Pinchot Task Force                                | Preservation and Restoration Project                     | A stewardship group will be formed to help preserve and restore freshwater resources and critical habitat including Goat Mountain in the Gifford Pinchot National Forest.  | \$5,000 | OR    |
| Kwiaht Center For The Historial Ecology Of The Salish Sea | Deep Reef Marine Stewardship Team                        | A San Juan county youth program in marine conservation will assist in sub-tidal recovery efforts for native oysters and rockfish.  | \$5,000 | WA    |
| National Audubon Society Inc                              | Bering Strait Habitat Conservation Strategy              | Project will generate data for use in efforts to designate the Bering Strait a World Heritage Site, Marine Protected Area, Particularly Sensitive Sea Area, Ecologically and Biologically Significant Area, or other international conservation designation.   | \$5,000 | NY    |
| Owl Research Institute Inc                                | Snowy Owl Conservation                                   | A keystone study for Snowy Owl conservation will be supported through research, outreach, and education.   | \$5,000 | MT    |
| Trumpeter Swan Society                                    | Oregon Trumpeter Swan Restoration                        | Ten to fifteen trumpeter swans will be released at Summer Lake Wildlife Wildlife Management Area to help restore a healthy breeding population.  | \$5,000 | MN    |
| Washington Wildlife And Recreation Coalition              | Building Coalition of Sportsmen and Businesses           | The Coalition will promote critical habitat preservation in Washington State by bringing together hunting, fishing, conservation, business and recreation communities to educate decision makers about the need for preservation funding.  | \$5,000 | WA    |
| Western Sustainability Exchange                           | Enhancing Wildlife Habitat Through Ranchland Stewardship | WSE will enhance management on 50,000 acres of critical habitat through sustainable agricultural practices and training and certifying 30 qualifying ranchers through rigorous Sustainability Criteria.  | \$5,000 | MT    |
| Whale Museum  | Soundwatch Boater Education                              | The Whale Museum's Soundwatch Boater Education Program will provide data analysis updates on whale watching trends and regulation compliance. The education and monitoring of vessel activities will allow stakeholders to work collaboratively to develop marine conservation and management strategies that promote wildlife protection and sustainable use. | \$5,000 | WA    |
| <b>Youth Athletics</b>                                    |  |  |         |       |
| Albertina Kerr Centers                                    | Skill Building for Developmentally Challenged Youth      | The Kerr Games combine skill building opportunities with physical and social activity for children, ages 10-18, who have developmental disabilities and mental health challenges.  | \$5,000 | OR    |
| Associated Recreation Council                             | All Girl Everything Ultimate Program (AGE UP)            | AGE UP is a leadership program for teen girls, using Ultimate Frisbee as a hook to engage them in long-term intentional work developing critical awareness, leadership skills, positive identity and community across boundaries of race, class, gender and geography.   | \$5,000 | WA    |
| Century High School                                       | Softball Facility Renovation                             | Fuunds provided to complete dugout on playing field.   | \$6,000 | ID    |
| Clatskanie Middle High School                             | Middle School Sports                                     | Funds provided to purchase sports equipment and uniforms for athletic teams.   | \$5,000 | OR    |

| Grantee                                    | Grant Purpose  | Grant Summary   | Amount  | State |
|--|--|---|---------|-------|
| Eagle Mount - Bozeman                      | Adaptive Sports Equipment for Kids with Disabilities | Funds provided to acquire new, good quality children's adaptive sports equipment for core programs.   | \$5,000 | MT    |
| Kenai Peninsula Boys & Girls Club Inc      | Youth Athletic Equipment                             | Funds to replace balls, nets and to upgrade sports equipment.   | \$5,000 | AK    |
| Montana Development Partners               | Fencing is for Girls                                 | The project will introduce girls and young adult women to Olympic fencing, reaching out to girls who come from challenging situations and who could not participate without financial assistance.   | \$5,000 | MT    |
| Montana Eclipse Softball Club              | Softball Equipment                                   | Startup funds for uniforms and equipment including bats, balls, travel bags, safety equipment, batting helmets, socks, belts and helmet decals.   | \$2,000 | MT    |
| <b>Youth Culture</b>                       |  |   |         |       |
| Arts Central                               | Youth Arts Education                                 | Funds will support two ongoing programs for K-12 children and youth in Central Oregon: year-round visual arts classes at the Art Station, and the VanGo education outreach project, bringing arts learning to underserved students in after-school programs.  | \$5,000 | OR    |
| Ballet Northwest                           | Young Choreographers                                 | Ballet dancers ages 12 – 18 from southwest Washington will work with former Spectrum Dance Theater professional to explore the concept of choreography and engage and mentor others, culminating in a collaborative public performance with musicians and singers.  | \$3,200 | WA    |
| Eugene Symphony Association Inc            | Roseburg Youth Music Education                       | Eugene Symphony's string principals will coach students, culminating in a side-by-side performance with Symphony musicians.   | \$2,500 | OR    |
| Film Action Oregon                         | Project Youth Doc                                    | In the Hollywood Theatre's Project Youth Doc ("PYD"), youth, ages 13-16, produce short documentary films of personal and social relevance.  | \$5,000 | OR    |
| Hot Springs Artists Society                | Youth Arts Participation Camp                        | Professionally-guided visual and performing arts lessons and experiences will culminate in a showcase/auction. Native American culture will be prominently featured.  | \$5,000 | MT    |
| Koahnic Broadcast Corporation              | KNBA Youth Radio Program                             | The new Youth Radio Program will engage the community to address low high school graduation rates for Alaska Native Youth. The Program will build competence, pride in heritage, and community engagement.  | \$5,000 | AK    |
| Literacy Volunteers Of Flathead County Inc | Art Meets Literacy for Teens                         | Pairing art and literacy, teens work with paint and sketching to represent values and character qualities needed for a productive and positive life; others write poetry, read artist biographies and create art to represent the importance of reading.  | \$4,900 | MT    |
| Longview Stageworks                        | Theater Arts Skills                                  | Students and theater instructors engage in learning theatre arts skills including reading, movement, character writing, presentation, character analysis, plot, technical lighting, set modeling and set building, and stage management. The year ends with their own production open to families and the public. | \$5,000 | WA    |
| Lunacy Stageworks Inc                      | Theatre Workshops for Teens                          | Classes and performances engaging at-risk high school students to challenge them to create high quality theater.  | \$5,000 | OR    |
| McCall Arts & Humanities Council Inc       | Children's Theater                                   | Funds will initiate an 8-week autumn Children's Theater program for ages 6 to 16 providing theatrical experiences for 25-30 children under the guidance of an experienced children's director, and would partner with the Alpine Playhouse to stage production in a local theater.                                | \$3,236 | ID    |

| Grantee   | Grant Purpose                                      | Grant Summary   | Amount   | State |
|---|--|---|----------|-------|
| Pye Global  | Her Stories: Y-WE Speak                            | The theater and writing-based empowerment program for teen girls from diverse cultures includes monthly workshops led by teaching artists from the Seattle Rep & Y-WE. The program culminates with a show focusing on the experiences of youth growing up in the NW, written by the youth and performed at the Rep & other venues.    | \$5,000  | WA    |
| Rialto Community Theater Inc                        | Purchase of Main Stage Curtain                     | Funds will purchase a mainstage curtain to cap off the rebuilding the Rialto theater after the original curtain had to be cut down to fight a fire.   | \$5,000  | MT    |
| Salmon Arts Council Inc                             | Arts Academy                                       | Arts education program serves students grades K -12 in Lemhi County public schools to give youth hands-on learning experience in literary arts, fine arts and performing arts.  | \$4,240  | ID    |
| Write Around Portland                               | Creative Writing Workshops                         | Schools and youth-serving agencies receive thirteen creative writing workshops to give underserved young people writing practice, culminating in publication of students' writing in an Anthology (the program's 38th) that will be released at public readings.  | \$5,000  | OR    |
| Boys And Girls Club Of The Northern Cheyenne Nation | Cultural Learning Project                          | The Project encourages Cheyenne youth to discover their own creativity and sense of purpose and to develop leadership skills that provide an understanding of culture, traditional values and sense of responsibility for self, others, and for their homeland.   | \$10,000 | MT    |
| <b>Youth Education</b>                              |  |   |          |       |
| Boise State University                              | Portable Lighting System                           | Funds for purchase of portable lighting system to help create a theater space in schools that do not have a dedicated location for theater productions.   | \$2,890  | ID    |
| First Place   | Self-Directed Education                            | Students actively involved in managing their own education, forming classroom rules, affecting length of time spent on units, writing rap lyrics to act out Hamalet, visiting state legislators to advocate for issues related to education and foster care.  | \$5,000  | WA    |
| Salish Sea Expeditions                              | Sound & Source Science and Environmental Education | Field-based science learning experiences in natural settings for Puget Sound area youth in grades 5-12, includes student-designed, student-led marine and watershed research projects guided by science and environmental professionals, culminating in a public presentation to peers and professionals.                             | \$5,000  | WA    |
| Southeast Island School District                    | Repurpose and Recycle                              | Junk Box Science is a student-centered, inquiry based activity which allows students to creatively apply the concepts that they read about in their text books and develop skills in engineering, arts and technology. Students are presented with a box of "junk" and are challenged to perform a science based task from that junk. | \$5,000  | AK    |
| Spring Street International School                  | Bird Monitoring                                    | Funds support ongoing monitoring, recording and evaluation of breeding and nesting habits of native San Juan Island birds and the future health and viability of their food and water sources.  | \$7,000  | WA    |
| Willamette University                               | Summer Program for Creative Minds                  | Residential summer program that engages students through theatre, writing, photography, videography, and visual art alongside professional artists and instructors.   | \$5,000  | OR    |
